Skills

Enthusiastic and dedicated web developer with experience in front-end technologies and a growing proficiency in back-end development. Eager to leverage skills in **JavaScript**, **Python**, **React**, and **C#** to contribute to innovative web projects while continuing to learn and grow in a dynamic team environment.

Experience

Personal Portfolio Website

2022

Created a personal portfolio website to showcase my projects and skills as a web developer. The site features a clean, modern design implemented with React, highlighting my work in both front-end. This project not only demonstrated my technical abilities but also improved my skills in UX design and content presentation. The portfolio serves as a platform for potential employers to review my work and understand my journey as a developer.

Pokédex Application

2024

Developed a dynamic Pokédex web application using vanilla JavaScript, enabling users to search and filter Pokémon based on various attributes. The project involved integrating a RESTful API to fetch real-time data, allowing users to view detailed information, including abilities, types, and stats.

Formation

Uninorte College - Bachelor in *Computer Science.*

JANUARY 2022 - DECEMBER 2027 | MANAUS, BR
